

MWP Symposium 2025 invitation

Description

Invitation to the Marcus Wallenberg Prize Symposium on November 4, 2025

We are proud to invite you to the 2025 Marcus Wallenberg Prize Symposium, that will be held online as well as on premises in Stockholm, to celebrate the MWP 2025 Laureate.

The theme of this year's symposium is *From Tree Genomes to Future Forest*.

A distinguished selection of speakers will deliver presentations on forest genomics from scientific, regulatory, and business perspectives.

The 2025 MWP Laureate, Dr. Gerald Tuskan, will give a keynote presentation at the symposium. Dr. Gerald Tuskan is awarded the 2025 Marcus Wallenberg Prize for his pioneering work in sequencing and analyzing the first tree genome. His leadership in this project has revolutionized research in tree and forest genomics and biotechnology, paving the way for genome-based breeding of commercially important trees.

Registration is now open for those who wish to participate digitally in the Marcus Wallenberg Symposium. Online participation is free of charge.

A recording of the symposium will be distributed to registered persons after the event.
