

Symposium 1991

Description

Ecophysiology of Ectomycorrhizae of Forest Trees (1991)

Lectures given at the 1991 Marcus Wallenberg Prize Symposium held in Stockholm on September 27, 1991.

The fungal partner in the mycorrhizal symbiosis

Professor Bengt Söderström Department of Microbiological Ecology, Lund University, Sweden

The role of the mycorrhizal symbiosis in the nutrition of plant communities

Professor David J. Read, Department of Animal and Plant Sciences, School of Biological Sciences, The University of Sheffield, Great Britain

The practical significance of ectomycorrhizae in forest establishment

Dr. Donald H. Marx, recipient of the 1991 Marcus Wallenberg Prize, USDA Forest Service, South Eastern Forest Experiment Station, Institute of Tree Root Biology, Athens, Georgia, USA
